# Karndean Designflooring in Education Settings

Stylish, durable and low maintenance Karndean flooring helps you to create a safe and inspiring educational environment in which students can learn and flourish. Karndean Designflooring is a practical and resilient choice for universities, school districts and local day cares.

## Helping to create a safe student learning environment

Our realistic wood and stone effect flooring ranges have a low volatile organic compound rating, meeting the strictest environmental regulations by carrying a FloorScore® Indoor Air Quality certification, and recognition by California Department of Public Health's CAL 1350 standard. Our adhesives are free from harmful emissions, allowing for flooring to be safely installed with students, faculty or staff in close proximity.

## Flooring to meet hygienic and anti-allergen needs

A growing number of educational institutions now need to provide hygienic and anti-allergen environments for their students, such as in halls or residence facilities. Unlike many carpet and textile floor coverings, nonporous Karndean Designflooring does not harbor dirt or dust mites. It is also easy, quick and inexpensive to maintain.

## Durable flooring for high traffic areas

High traffic areas including corridors, classrooms and laboratories require a floor covering that can withstand daily wear and tear. All Karndean floors benefit from our K-Guard+® surface protection, which uses PU technology to provide a hygienic and durable finish that will protect your floor for years to come.

## Quick and easy to install

If you're looking for products that are quick and easy to install, look no further than LooseLay. In addition to a quick installation, this range features impressive acoustical ratings, reducing noise transfer by up to 16dB, ideal for multi-story buildings including vertical campuses and dormitories.

# University of North Texas

Location: Denton, Texas

Product: LooseLay Longboard:

Raven Oak **LLP302**

Pearl Oak **LLP306**

French Grey Oak **LLP308**

"We knew we wanted something durable and with a thick profile for installation over our existing subfloors. After learning about Karndean LooseLay's thicker profile and acoustic properties, and seeing the clean lines and texture within the collection, we decided this was the right product for the job."

Thanh Kim Nguyen, Manager of Campus Planning

GLUEDOWN  
Van Gogh

## Florida International University

Location: Sunnyvale, Texas

Product: Van Gogh Wellington Oak **VGW53T**  
and Christchurch Oak **VGW54T**

"We tested four different products in a 60 square foot area outside the elevators to see what held up the best. We ended up going with Karndean for a few reasons—the thicker wear layer made Karndean hold up extremely well, the design and colors were very attractive, and for a glue down product it was still easy to replace a plank."

John Tallon, Assistant Director of Housing Facilities at FIU

### Color and Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world. Just as variation in color and detail is part of the unique beauty of natural materials, it is also a feature of many of our designs. This means that with some of our products you will see natural variation when your floor is laid. If in doubt, ask your retailer to show you a larger sample of the product.
