

# Accreditations

We are committed to minimising our impacts through the operation of our Environmental Management System to continually improve our environmental performance and that of our suppliers and sub-contractors.

Our aim is to remain the leading supplier of LVT flooring and to have a market-leading environmental record of achievement. Through the development of sustainable products and processes, our flooring is manufactured in factories certified to the ISO 14001 Environmental Standard and ISO 9001 Quality Standard. What's more, the salt used in our PVC is sourced from ISO 14001/ISO 9001 certified raw material suppliers, where possible.

Further accreditation in this field include:

**FloorScore:** our flooring and adhesives meet FloorScore® certification standards for air quality.

**Leadership in Energy and Environment Design (LEED):** our FloorScore® certification qualifies for LEED IEQ 4.3 credit to protect healthy indoor air quality.

**Building Research Establishment Environmental Assessment Method (BREEAM):** our flooring meets the BREEAM assessment rating using the BRE Global Guide to specification, with A/A+ rating depending on application and specification.

**SKA Rating:** under M11 section of the SKA Rating for building refurbishment, our products meet The Green Guide to Specification's generic A/A+ rating.

Our products comply with European technical approval standards (CE Conformity and marking) including:

**EN ISO 10582:2012 (EN 649):** Resilient Floor coverings – Heterogeneous vinyl floor coverings – Specification.

**EN ISO 10874:2012 (EN 685):** Resilient, Laminate and Textile Floor coverings – Classification.

**EN 13501-1:2002:** Fire Classification of construction products and building elements.

**EN 14041:2004:** Resilient, Textile and Laminate Floor coverings – Essential characteristics.65
